

# CLIMAT CÉVENOL BIO

IGP Cévennes – Red

The Climat Cévenol Bio range is the expression of a winegrowing territory, that of Saint Maurice at the foot of the Cévennes. Climat Cévenol Bio comes in three colors, the fruit of a selection of different expressions of terroir and varieties harvested in the north, south, east and west. They are the result of a remarkable climatology on account of the close proximity of the Cévennes. A part of these wine territories is carried out in organic farming.

**Soil:** Limestone-Clay
